01 · The system at a glance

Marzley Tech Solutions runs one connected system. Visitors find us through the **website**, become clients in the **client portal**, pay securely by **M-Pesa**, and anyone can learn for free in the **learning hub**.

Website

Services, work, prices, blog, free tools and contact. [/](#)

Client portal

Projects, invoices, M-Pesa payments, referrals and support. [/portal/](#)

Learning hub

32 subjects, 190 lessons, notes, videos and a 22-language code editor. [/learn/](#)

Payments

M-Pesa STK push (the prompt on your phone), Till 6095737, cards via Paystack.

Free tools

Website check, price calculator, quote PDF, chat assistant.

Platforms

CBET Planner, BuildPro and Jobs Connect, built by Marzley Tech.

1 Visitors

Browse, check a website, get a quote, read the blog, chat on WhatsApp. No account needed.

2 Clients

Sign up with Google or an email code, follow projects, pay invoices, refer friends and ask for support.

3 Learners

Learn and practise free. A free account is only needed to watch video lessons and save progress.

Our brand: logo, colours and fonts

Every page, invoice, quote and certificate uses the same look, so clients always recognise Marzley Tech.

Logo

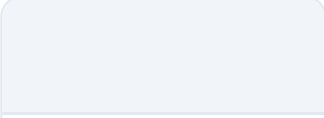

Wordmark: Marzley**Tech** ("Marzley" in navy or white, "Tech" in amber).

Tagline: Technology for real solutions.

Keep space around the logo, never stretch it, and use the round badge on light or navy backgrounds.

Colour codes

 Navy #0b1b35 · headings, header, buttons	 Royal navy #1e3a7a · gradients	 Amber #ffb800 · main buttons, highlights	 Amber text #955a06 · small amber text
 Blue #2563eb · links	 Green #059669 · success, "Free", "Live"	 Slate #475569 · body text (muted)	 Mist #f1f5f9 · page background

Dark mode uses a deep navy background (#0b1628) with the same amber accents. The 60-30-10 rule applies: mostly light/neutral, navy for structure, amber only for the main action.

Typography

Inter ExtraBold: headings

Inter Bold: section titles and buttons

Inter Regular: body text, 16–17 px on screen, line height 1.6.

Monospace: code in the learning hub

Buttons and labels

Primary: Get a free quote

Secondary: See our work

Live

The website

marzleytechsolutions.co.ke introduces Kelvin Wanyoike (Marzley) and Marzley Tech Solutions, shows our work and makes it easy to start a project.

Homepage. "Technology for real solutions." The top bar links to every section; the moon button switches to dark mode; the round user button opens the client portal.

Main pages

Page	What you'll find
Work	15 projects (filter by Healthcare, Education, E-commerce, Systems, Business) and case studies.
About	Kelvin's story, skills and certifications.
Services	9 services from websites to IT support.
Process	How a project runs, from free call to launch.
Pricing	Packages, quote calculator, care plans, deposit payment.
Blog	Guides on websites, SEO, M-Pesa, coding and our platforms.
Learn	The free learning hub (section 08).

Helpful extras on every page

- **WhatsApp button:** chat with us any time.
- **Chat assistant:** instant answers about prices, services, M-Pesa, the learning hub and our platforms.
- **Accessibility menu:** bigger text, higher contrast, less motion, reading guide.
- **Dark mode:** easier on the eyes at night.
- **Kiswahili page:** our services explained in Kiswahili.
- **Install as an app:** add the site to your phone's home screen, or download the Android app from the About section.

Tip: the site is built mobile-first and loads fast on mobile data, so everything works on a phone.

Contact WhatsApp, phone, email, booking form and call-back.

Prices, quotes and paying by M-Pesa

PRICING

Website packages

Starting prices in Kenyan shillings. Every project is quoted to its scope; message us on WhatsApp to get started.

Package	Starting Price (KSh)
Starter (Landing page)	15,000
Small business (Small business website)	25,000
E-commerce (E-commerce)	40,000
Enterprise (Corporate / custom system)	60,000

Pricing page. Four packages with clear starting prices.

Website packages

Package	From
Landing page	KSh 15,000
Small business website	KSh 25,000
E-commerce	KSh 40,000
Corporate / custom system	KSh 60,000

Care plans (monthly)

Plan	Price	Includes
Basic	KSh 1,500	Monthly backups, updates, uptime monitoring, WhatsApp help
Business	KSh 3,500	Weekly backups, 1 hour of changes, monthly speed & SEO check
Premium	KSh 7,500	Daily backups, 3 hours of changes, priority 24/7

Get an instant quote

- 1 On **Pricing**, choose a package in the quote calculator.
- 2 Tick add-ons (M-Pesa payments, logo, domain and hosting...).
- 3 See the estimate update instantly.
- 4 Type your name and click **Download PDF quote**: a branded quote you can share or print.

Pay a deposit with M-Pesa

- 1 In **Pay a deposit**, pick an amount, enter your name and Safaricom number.
- 2 Press **Pay with M-Pesa**: a prompt appears on your phone.
- 3 Enter your M-Pesa PIN. The page confirms the payment and shows your receipt code.

Prefer to pay manually? Use **Buy Goods Till 6095737**, then send us the M-Pesa message on WhatsApp. We never ask for your PIN.

Free website health check

Anyone can test any website in seconds and get a score out of 100 with a plain-language tip for each problem.

**MarzleyTech**

HomeWorkAboutServicesProcessPricingBlogLearn **Free**Contact

FREE TOOL

Free website health check and SEO test

Enter your website's address for an instant report on security, speed, mobile and Google basics, with tips to fix each issue.

 Check my website

Website check at /website-check. Type an address like yourbusiness.co.ke and press **Check my website**.

Security

https, a valid certificate, and http:// sending visitors to the secure version.

Speed

Loading time, page size and compression.

Mobile

Whether the page is set up for phone screens.

Google basics

Title, search description, one main heading, image descriptions, language.

Sharing

Preview image for WhatsApp and Facebook, and a site icon.

Next step

Low score? One tap sends your result to us on WhatsApp for a fix quote.

The client portal

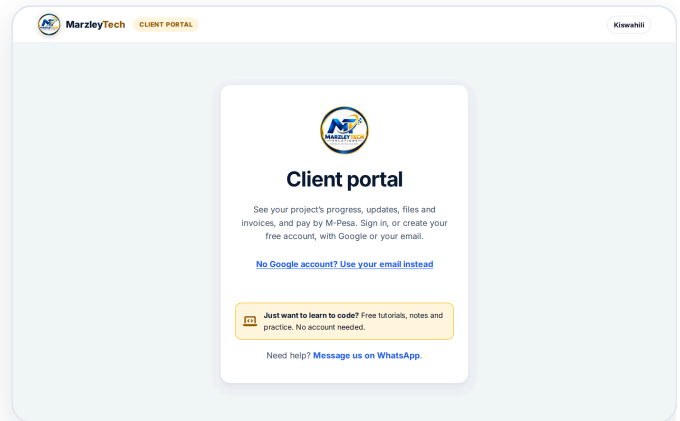

Your private dashboard at marzleytechsolutions.co.ke/portal/: follow your projects, pay, download statements, refer friends and get support. Anyone can create an account.

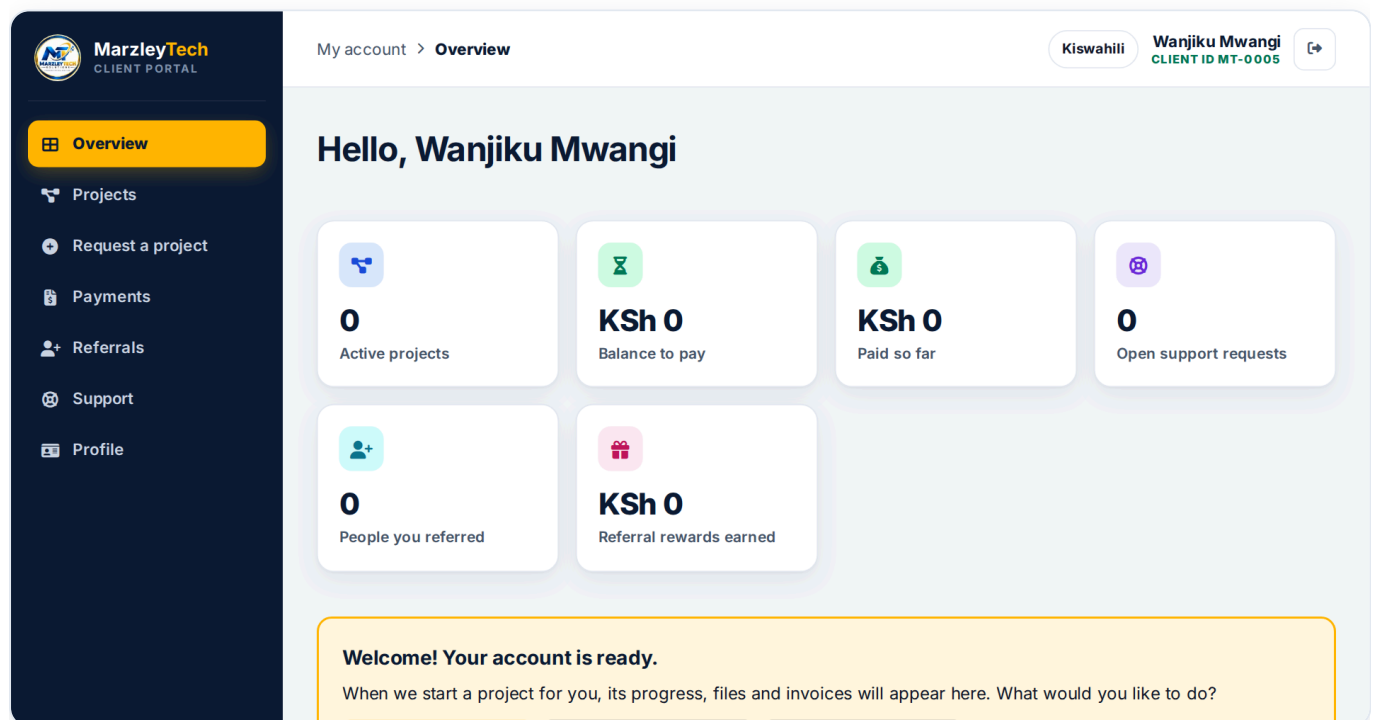

Create an account or sign in

- 1 Open the portal (the round user button at the top of the website, or **Client login**).
- 2 Choose **Sign in with Google**, or type your email and press **Email me a code**.
- 3 Enter the 6-digit code from your email (and your name the first time).
- 4 You're in. You get a **client ID** (e.g. MT-0005) and a personal referral code.

Kiswahili: press the **Kiswahili** button at the top of the portal to switch language.

Sign-in page. Google or a one-time email code, with no password to remember.

Client dashboard: Overview. Active projects, balance to pay, amount paid, support requests and referral rewards at a glance.

Tab	What you can do
Overview	Summary cards, project progress, next payment and quick actions.
Projects	Each project's status (e.g. design, development, live), progress, files and approvals.
Request a project	Describe a new website, system or change; we reply with a quote in the portal.

Payments	Invoices and balances; pay by M-Pesa (prompt on your phone) or card; download receipts and a full statement .
Referrals	Your referral link and code, and the progress of everyone you referred (section 07).
Support	Open a support request and follow our replies.
Courses	Training courses you're enrolled in and certificates (shows when you have courses).
Domains	Your domains and renewal dates (shows when we manage a domain for you).
Profile	Your name, phone (for M-Pesa and referral rewards) and account details.

Referrals: earn KSh 2,000

Know a business, school or clinic that needs a website or system? Share your link. When they become a client and their work is done, you receive **KSh 2,000 by M-Pesa** (or off your next invoice).

They appear below straight away.

3 They pay, we finish the work
Status: Paid · work in progress.

4 You get paid
KSh 2,000 to your M-Pesa once the work is done.

People you referred

Referrals tab. Your client ID, your referral code, your link with Copy and Share on WhatsApp buttons, and the four steps.

Stage	What it means
Enquired	Your friend used your link or code to contact us.
Signed up	They created a client account.
Project started	We started their project.
Paid	They paid for the project.
Reward due	Their work is done (the project went live). Your KSh 2,000 is ready.
Reward paid	We sent the reward to your M-Pesa number.

Make sure your phone number is saved in **Profile** so we can send your reward. You can also get a referral link without an account on the website's **Referrals** page.

The learning hub

Free lessons for everyone at **/learn/**: 32 subjects, 190 lessons and over 600 practice questions. No account needed for tutorials, notes and practice.

MARZLEY TECH LEARNING HUB

Learn tech skills free, right in your browser

32 subjects and 190 lessons: coding in 13 languages with a live editor, web and graphic design, Excel, Word and everyday ICT skills, networking and subnetting, cybersecurity, AI tools and how to make money online. Practise with questions that check themselves. Works on your phone.

✓ Tutorials: free
 ✓ Notes: free
 ✓ Practice: free
 ✓ No account needed

[Start with HTML](#)
[Open the code editor](#)

Tutorials

Learning hub home. Subjects grouped into Web & coding, More programming languages, Design, ICT & digital skills, Networking & security, and Business & earning online.

Subjects

- **Coding:** HTML, CSS, JavaScript, Python, SQL, PHP, TypeScript, Java, C, C++, C#, Dart & Flutter, Go, algorithms, Git.
- **Design:** web design & UI/UX, graphic design with Canva.
- **ICT & digital skills:** computer basics, online safety, Word, Excel, PowerPoint, email & Google Drive, AI tools, eCitizen & KRA iTax, computer maintenance.
- **Networking & security:** networking and CIDR subnetting (with calculators), Linux, cybersecurity, hosting.
- **Business:** making money online, digital marketing & SEO.

How a lesson works

- 1 Pick a subject; the lesson list appears on the left (menu button on phones).
- 2 Read the notes and press **Run** on the *Try it* code boxes to see results instantly.
- 3 Answer the **practice questions**; they check themselves.
- 4 Complete the **exercise** and press **Check my answer**.
- 5 Use **Keep learning** for free videos on the topic, then go to the next lesson.

Save your progress: sign in (free) so completed lessons follow you to any device.

Numbers and strings →

Python introduction

Python is one of the easiest programming languages to learn, and one of the most used: for websites, data, automation and AI. It runs right here in your browser.

TRY IT · PYTHON

↺

🔗

▶ Run

```
1 print("Hello, Kenya!")
2 print(2 + 3)
3 print("KSh", 1500 * 3)
```

💡

The first run takes a few seconds while Python loads. After that it's instant.

Variables

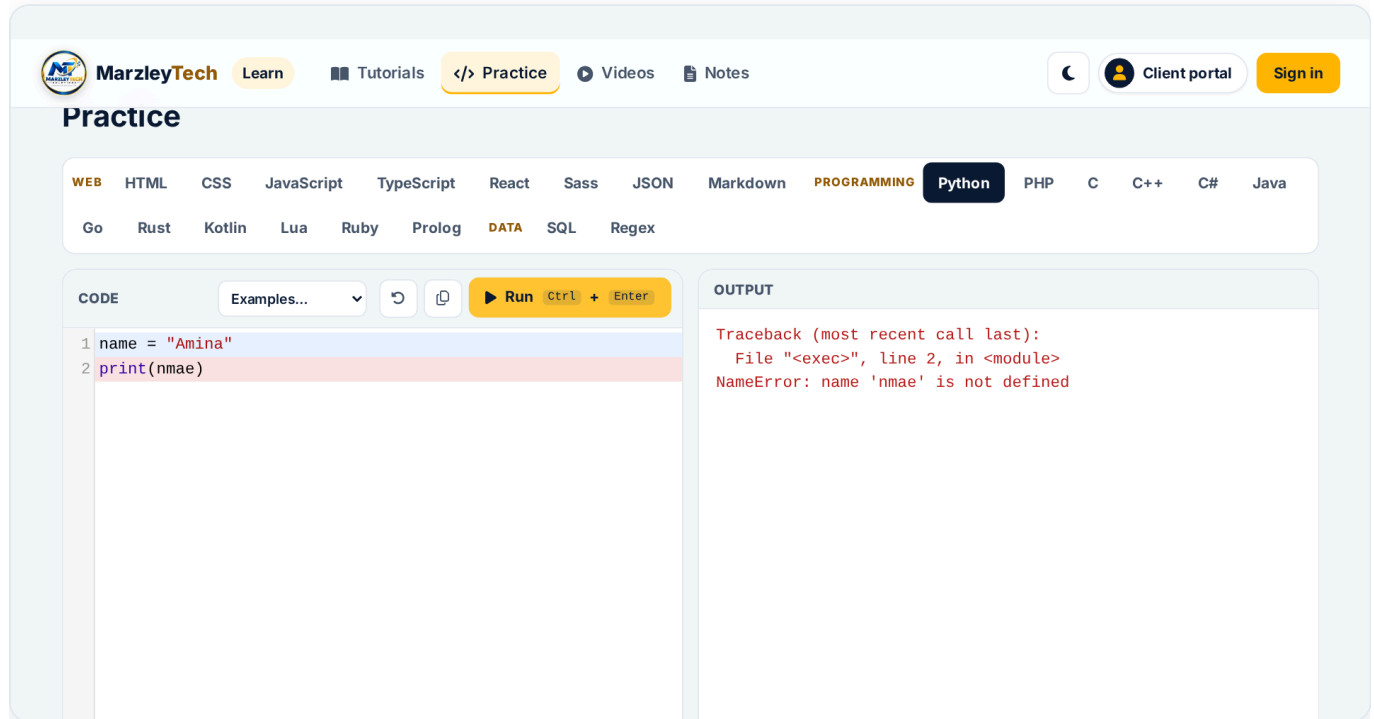

A lesson. Notes, runnable examples, questions and an exercise, with previous/next buttons.

SECTION 09

The practice code editor

Write and run code in **22 languages** right in the browser, on a phone or computer. Open it from **Practice** in the learning hub.

Practice editor. Choose a language, write code, press **Run** (or Ctrl + Enter). If something is wrong, the line turns red and a **"What went wrong"** box explains the problem and how to fix it.

Group	Languages	How it runs
Web	HTML, CSS, JavaScript, TypeScript, React, Sass, JSON, Markdown	Instantly in your browser
Programming	Python, PHP, C, C++, Lua, Ruby, Prolog	In your browser (Python, PHP and Ruby download once the first time)
	C#, Java, Go, Rust, Kotlin	On Compiler Explorer (godbolt.org), a free online compiler. Needs internet, a few seconds.
Data	SQL (sample shop database), Regex tester	Instantly in your browser

Useful buttons

- **Examples...** loads ready-made programs.
- **↺ Reset** brings back the starter code.
- **Copy** copies your code.
- Your code is **saved on your device** automatically.
- The **About** panel explains the language, gives tips and links to its lessons.

When code goes wrong

- The error line is **highlighted red**; click "Line N" to jump to it.
- **What went wrong** and **How to fix it** in plain English, with an example.
- HTML/CSS get tips: unclosed tags, missing ; or }, "colour" instead of color, missing units.
- Code that runs forever is **stopped after 10 seconds**; the page never freezes.

Safe by design: learners' code runs in a sealed sandbox. It cannot reach the website, cookies, accounts or payments, and it doesn't load our server.

Lesson 1: HTML basics 25

HTML basics in 10 minutes

1 views · 1 likes · 1 comments

Free video courses from around the web

Hand-picked YouTube channels with complete, free courses. Every lesson in our tutorials also has a "Watch free videos" link for that exact topic.

freeCodeCamp.org

CS50 (Harvard)

Programming with Mosh

Traversy Media

Video lessons. Our own step-by-step videos, plus hand-picked free YouTube channels.

Watch a video lesson

- 1 Open **Videos** and choose a lesson (price shown, usually **KSh 50**).
- 2 **Sign in** (free) with Google or an email code.
- 3 On the video page ("*Unlock this video*"), enter your M-Pesa number, then your PIN on the phone prompt.
- 4 The video unlocks at once and stays yours to watch any time. Like it and join the comments.

Free notes

The **Notes** page has PDF notes you can read in the browser or download for revision, with no account needed.

Free videos elsewhere

Every lesson has a **Watch free videos** link for that exact topic, and the Videos page lists trusted channels (freeCodeCamp, CS50, Jeremy's IT Lab, ExcellisFun and more).

Our platforms

Systems built and run by Marzley Tech Solutions. Each has its own blog post and case study on the website.

C CBET Planner · cbetplanner.co.ke

For TVET trainers: upload a curriculum and generate learning plans, session plans, information sheets and assessments in the CBET format. Review and edit everything before downloading.

B BuildPro · buildprov1.cbetplanner.co.ke

For architects and building engineers: from site survey to drawings, a 3D model, structural design, quantity takeoff and BQ, materials, costing and documentation, with an AI design assistant and revision tracking.

J Jobs Connect · jobs.marzleytechsolutions.co.ke

Connects skilled professionals with customers. Describe a job, get matched with verified pros nearby, pay safely with **M-Pesa escrow** (released when the job is done), leave a review. Riders can enrol in the **delivery module** and customers can send parcels. English and Kiswahili.

For the team: the admin portal

Staff sign in to the same portal address. Admin accounts see the management tabs below.

Tab	Used for
Overview & Reports	Income, open work, charts and monthly reports.
Leads & Quotes	Enquiries from the website, WhatsApp and portal requests; send quotes and convert leads into clients.
Growth	Referrals (mark "Work done" to release a reward), client reviews to publish on the website, the mailing list and questions asked in the chat assistant.
Projects	Create projects, update status and progress, share files; marking a project Live makes any referral reward due.
People	Clients and staff: client IDs, contact details and team access.
Invoices	Create invoices and payment links; M-Pesa and card payments are matched automatically; reminders and PDFs.
Domains & hosting	Domain and hosting renewals and expiry alerts.
Support	Reply to client support requests.
Courses	Training students, lessons and verifiable certificates.
Learning hub	Edit subjects and lessons, upload videos (with poster images) and PDF notes, set video prices, moderate comments.
Activity & system	A log of important actions, backups and system health.

Updating the site: content is edited in the project files and published by uploading the site package to cPanel (extract and overwrite), then pressing Ctrl + F5. Payment keys and database passwords live in portal-config.php one folder above public_html, never in the website files.

Safety, privacy, help and contacts

Safety and privacy

- The whole site uses **https** (the padlock).
- Sign-in uses Google or one-time email codes: no passwords to steal.
- M-Pesa payments are confirmed by Safaricom; **we never ask for your PIN.**
- Your data is handled under Kenya's Data Protection Act (2019). See the Privacy page.
- Analytics cookies are only used if you accept them.

Quick fixes

If...	Try this
A page looks old or broken	Press Ctrl + F5 (or clear the browser's cached files on a phone).
No M-Pesa prompt	Check the number (07... or 01...), unlock your phone, try again, or pay Till 6095737.
No sign-in code	Check spam/promotions, wait a minute, then request a new code.
Code stopped after 10 s	A loop never ends; read the "What went wrong" box.
C#/Java/Go won't run	They need internet (online compiler). Try again, or use the link shown.
